

# SCS Global Services

Scientific Certification Systems, Inc., now doing business as SCS Global Services, is a trusted leader in third-party environmental, sustainability and food quality certification, auditing, testing and standards development.

SCS Global Services partner with companies, government agencies, and stakeholders worldwide to identify and drive practices, policies and processes that advance the goals of sustainable development and give innovators a competitive advantage. SCS Global Services vision is to promote sustainable decision-making and policies in every sector of the economy around the world, in order to safeguard our environment, support workers and communities, and raise the standard of living for all. Working with capable leaders across the forestry, green building, energy, agricultural, fisheries, and consumer products sectors, SCS Global Service proudly provide services in every corner of the earth. These services are enabling policy-makers, procurement officers, company decision-makers and consumers to make informed decisions based on the highest level of environmental, ethical and quality accountability. SCS also are playing a leading role in driving the development of national and international leadership standards to create a framework for continuous improvement.
